Business Starter Package

Barrie Gerbich approached Design House as he was interested in a website design for his Dog Behaviour Consultancy business.

After further discussion we decided the [Business Starter Package](#) with a logo, business cards and 3 page website would be the most effective way for Barrie to launch his niche business off the ground.

Barrie will be delivering seminars and programmes for community and personal education and development in:

- Wild dog behaviour & management

- Rural & urban dog issues
- Working dog & handler development
- Dangerous dog safety & awareness

I just wanted to thank you for all the wonderful work you have done for me by building my website, designing my logo and cards and just being a great help all the process, and never being too busy to give advice and answer questions.

*Your service was prompt and professional and I will definitely be recommending you to my friends.
Thanks again*

Mt Everest 'Think Big' Trek 2010

"It is not the mountain we conquer but ourselves."

Edmund Hillary

This month I am off on what will be one of the biggest life changing experiences I may ever have!

I'm hoping to completely overhaul my mind, the way I see life and business, develop my creativity, create new opportunities and contacts plus become even more passionate about all aspects of my business, my clients businesses and the importance of a balanced lifestyle.

I am now appealing to my valued clients and friends for support and sponsorship of my huge task being the climb to Base Camp Mt Everest, a 21 day hike in what I would consider quite exceptionally different conditions to what I am accustomed to!

If you would like to sponsor my trek any support would be most graciously appreciated Please click [here](#) for more interesting information about the trek and see how you can help and promote your business.
