Good Bye Base Camp and Back to Work!!!

I've finally returned from Base Camp at Mt Everest!

An enormous thank you to all those who supported me including clients, friends, family, and especially my [Sponsors!](#)

19 days straight of walking!!!
Our longest day being 9.5hrs ... OW!

Click [here](#) to see images, videos and a full review of the trip.

Artwork of the Month - Zumba Jose (Melbourne)

Thanks Jose, the pleasure was all mine!

"I was in the process of looking for a graphic designer and many crossed my path, however none could really produce the end result I was looking for.

I was referred to Jeanette by a friend and over email told her exactly what I was after. Within hours she not only responded to my email request she had already produced a preview of exactly what I wanted! It was so easy working with her and she listened to what I was after.

The process was made even easier when she would respond at lightning speed to any emails I sent through. There was no time wasting and she was more than happy to make any changes requested to the final design.

The service thereafter in creating the design into business cards / flyers to be sent off to print was so straight forward and easy. Jeanette took care of the whole process and made doing business with her such a pleasure! Thank you Jeanette."

Business Starter Package - Three Elements (Sydney)

Gabrielle Gibbs found Design House via a google search on the internet and after an initial discussion and some information emailed she felt the Business Starter Package would be just the thing to get her beauty business off the ground.

This consists of a logo design, 1,000 business cards plus a three page website. We worked closely together in a timely fashion to create her unique modern and professional brand.

"Jeanette at Design House was extremely helpful with getting my website and business cards developed. The whole process was very efficient and professional. Jeanette was always available for any questions I had, and I am really happy with the outcome!"
