Feeling the Pinch? Then for Heaven's Sake Up Your ADVERTISING!!!

Whatever you do, don't make the mistake of cutting advertising from your budget during a Global Financial Crisis!!!

This may seem like it is saving you money but will cost you more in the long run or may take your business from **Slow Sales to NO Sales!**

Research suggests that businesses that advertise and drive their brand through a GFC reap the rewards long after the hard times are over.

Do you need help with your business brand & advertising?

NOW is the time to make your business BOOM!!!!

original file be lost or damaged?

Giving you complete piece of mind if your computer or server crashes!

About Mozy:

Founded in 2005, Mozy is the world's most trusted online backup service for consumers and businesses with more than 3 million customers and 70,000 business customers backing up 70 petabytes of information to multiple data centers around the globe.

Mozy is also used by Telstra for their client T-Suite cloud services.

Mozy believes:

You shouldn't have to think about backup, it should be set up once, and then work automatically.

Your backup files should be encrypted and stored in a secure, remote location that's only accessible to you – from anywhere.

Your backup system should be smart enough to only back up data that's not already been backed up, only back up parts of a file that have changed, and be able to back up open and locked files.

A business card is a fundamental part of any good marketing plan and for its size and cost; it's probably the most powerful part. They should present a professional image people will remember plus your business card can make or break a client's first impression of your business.

Having your face on your card helps a contact remember you the next time he or she sees you.

Your business card design should also match your business image..... Does yours?
